

Higher National Diploma (HND) in Computing

With each passing day, information technology becomes more important in our lives and creates exciting new opportunities for innovation across countries and industries.

All modern businesses are powered by complex IT infrastructures and a team of experts who ensure smooth functioning of all technological solutions. Thanks to the increasing digitisation, the demand for talented and skilled computing professionals is growing at an accelerating rate.

Programme Details

An HND in Computing is a 24 months qualification and is equivalent to the first two years of an undergraduate degree. The syllabus has been designed alongside employers, representatives from professional bodies and higher education institutions so that students are work ready on completion of our qualifications.

We understand that students need to be equipped with employable skills. All of our course assessments require learners to work on practical assignments, develop their own research and includes real-time case studies and projects.

The programme has been tailored to equip students with the skills and knowledge necessary to transfer for a top-up degree to over 200 universities globally, seek entry-level employment or start their own business.

Entry Requirements:

- 60% in Grade 12 CBSE, American, Filipino or Thanaweya Amma.
- 3 D's at AS levels including either Math or Computing.
- 2 C's at A levels including either Math or Computing.
- IB Diploma with 24 points.
- Relevant work experience.

Tuition Fees:
AED 33,000 per year

Our BTEC and HND qualifications are awarded by Pearson, the world's largest learning company.
